

16-dars

Vazifa

1-oy

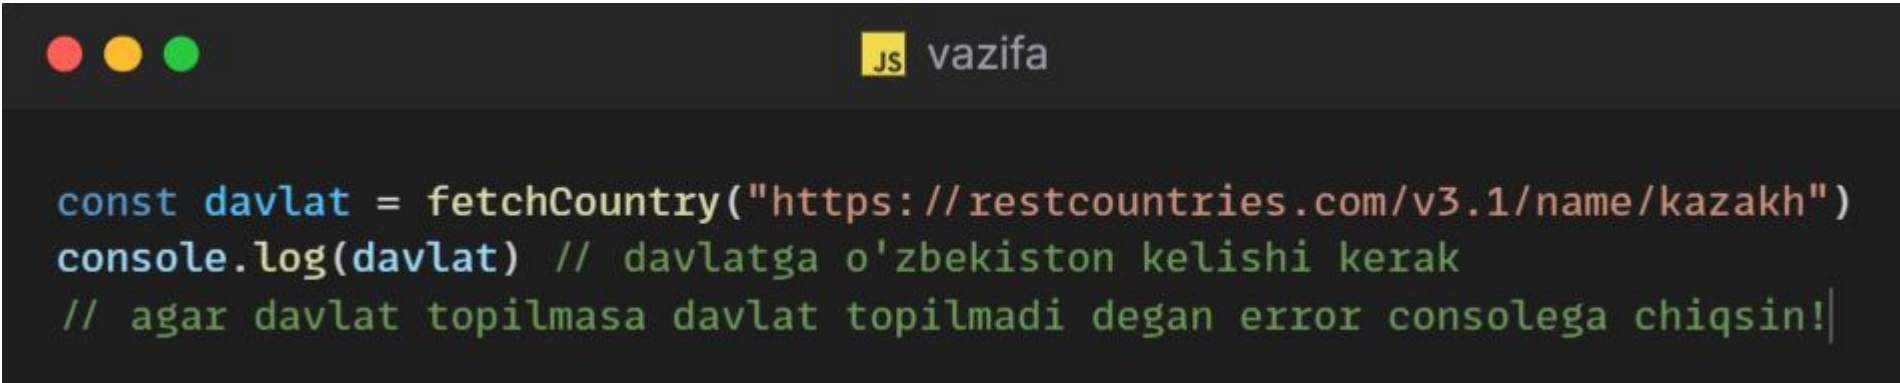

Vazifa:

1)

- Videoni qaytadan ko'rish
- JavaScript bo'yicha izlanish va mustaqil o'rganish
- Yangi ma'lumotlarni kundalikka yoki qaydnomalarga kiritish
- Darsga o'z vaqtida kelish va vazifani berilgan vaqt ichida to'liq bajarish.
- Shaxsiy blogga yangi o'tilgan mavzuni post qilib chiqarish
- Darsda bajarilgan ishlarni yaxshilab o'rganib qayta qilish.

2) Vazifa quyidagi misollarni bajarish:

1. Rest countries API dan foydalanib davlat nomi bo'yicha uning ma'lumotlarini olib keluvchi funksiya(fetchCountry) tuzing.
2. Agar davlat topilmasa custom NotFoundException orqali davlat topilmadi degan error chiqaring
3. URL -> <https://restcountries.com/v3.1/name/{davlat nomi keladi}>
4. Na'muna:

```
const davlat = fetchCountry("https://restcountries.com/v3.1/name/kazakh")
console.log(davlat) // davlatga o'zbekiston kelishi kerak
// agar davlat topilmasa davlat topilmadi degan error consolega chiqsin!
```

3) Qo'shimcha 95-100 ball uchun topshiriq: 2-topshiriqda davlat nomini kiritishni input elementi orqali bajaring va ushbu davlatni card holatida ekranga chiqaring (mavjud bo'lsa), aks holda topilmadi degan yozuv chiqsin

E'tiboringiz uchun
rahmat :)
